

GUIDERITE ADVENTURES — KALINSKI CONSULTING SERVICES

BACKCOUNTRY HUNTER'S COURSE

COURSE DESCRIPTION

Guiderite Adventures and Kalinski Consulting and Training Services have collaborated to deliver the ultimate instruction for the hunter that wants to push beyond the status quo and undertake a do-it-yourself backcountry back-pack-hunting trip. The backcountry hunter's course is designed to provide you with all the necessary skills to safely and (hopefully) successfully fill your tag in the solitude of the wilderness. You'll spend two days on the range receiving instruction on practical field shooting skills under the Kalinski Precision Hunter course. Upon completion of the range time, you'll spend three days and two nights in the backcountry of the Washington Cascade Mountains with Guiderite Adventures, learning all the skills needed to assist you in the successful undertaking of a do-it-yourself backcountry hunt.

ADDITIONAL NOTES ON THE COURSE

This course is an adventure, and as such, will have its associated risks as with any trip taken into a wilderness environment with dependence on self-reliance. Our students' safety and well-being is of the utmost importance and every precaution will be taken to ensure all have a safe and enjoyable experience. The Cascade Mountains are not gentle, and it is highly recommended that the student be physically capable of sustained strenuous activity such as climbing and traversing steep and uneven terrain, all while under potentially adverse weather conditions.
